

## Specialised Fabrication

INTECH GT Smith Engineering Ltd provides special fabricated products, and is committed to providing the highest standard of quality in terms of the products we manufacture and the services we provide to our customers. Our philosophy is one of building strong technically-sound partnership with our customers, enabling us to fully understand our customers' requirements and offer the highest standard of technical advice and support.

We are able to fabricate steel to your exact specifications for structural engineering projects throughout the local area and also specialise in security systems

In addition to the supply of quality products, INECH Power Service offer additional services including project management, installation, servicing and commissioning.

- Specialising in innovative steel fabrication solutions on a full range of applications and sites
